EISAI NAMED AS ONE OF NEWSWEEK'S WORLD'S MOST TRUSTWORTHY COMPANIES 2024

Eisai announced today that Newsweek has selected Eisai as one of the World's Most Trustworthy Companies 2024. This is the second consecutive year that Eisai has been selected.

The World's Most Trustworthy Companies 2024 recognizes companies that have earned the confidence of consumers, investors and employees by producing quality products, paying employees fair wages and appointing effective leaders. The list is based on the results of an independent survey of more than 70,000 participants and evaluations from customers, employees and investors about the trust levels of publicly traded companies with global revenues of over \$500 million. In addition, the results of a Social Listening survey, which consisted of analyzing online sentiment and compiling online mentions of the selected companies, were also taken into consideration. The highest scoring 1,000 companies, across 20 countries and 23 industries, were selected for the final ranking. (For more information, please visit [the Newsweek website.](#))

Eisai defines its corporate concept as “to give first thought to patients and the people in the daily living domain, and increase the benefits that health care provides to them, as well as meet their diverse healthcare needs worldwide.” Guided by this concept, Eisai is committed to building relationships of trust with its principal stakeholders, namely patients and the people in the daily living domain, shareholders, and employees.
